

FURNIPART COLLECTION

SPOT ON WITH ALUMINIUM

Aluminium is making a splash this season with its sleek colour tones and flawlessly smooth texture. And Furnipart is right on trend with these beautiful handles finished in matt! Presenting.. the Spot On Aluminium collection from Furnipart

LIGHT

01

True to its name, the Light handle from Furnipart sits light as a feather on the wood its affixed on. The flat front of pure aluminium lends the handle a look both modern and minimalistic, while the rounded edges soften its silhouette

SNELLA

02

Seemingly asymmetrical from certain angles is the Snella handle from Furnipart. Smart against the black of the cabinet, Snella stands smug and proud, showing off her curves

ROCK

03

The short ends of the Rock spread out like wings reaching for the wood, creating an aerodynamic shape that complements the rounded edges to create an altogether sleek silhouette brought together beautifully by the aluminium

DOLPHIN

04

The curves of the dolphin's body are replicated in the shade of aluminium, a colour that's once again reminiscent of the graceful marine mammal. The light plays with the flowing lines to render the piece ash to light grey in places

DOPPIA

05

The Doppia handle comes with a flat surface, distinctive and wide, on both edges, giving it an ultra-modern look in combination with the matte grey of the aluminium. The handgrip too follows the flat tone set by the edges

TANGERINE

06

Short and crisp, with a body that's thick-set and means business, the Tangerine handle from Furnipart with its gentle slopes and aluminium body spells class and sophistication

Choosing one can be hard!

Bear in mind the style you're adopting and the mood you want to create when opting for one of these beauties
