PREPARE TO BE BEWITCHED & BEDAZZLED

## GENESIS: CHISELING AWAY AT IDEAS

As with all things beautiful, this one too began its life as a nascent idea - an ephemeral thought that slowly found form through constant nurturing: the idea that nothing spells luxury like precious metals. This is the thought that consumed the creators of **GoldenWall2018** at Inkiostro Bianco as they set about laying the groundwork - comprehensive materials research - for what would eventually become this state-of-the-art collection of wallcovering.

## EXPERIENCE THE DANCE OF TECHNOLOGY AND DESIGN

And now, for a deep dive into the delectable details of what makes these 10 wallcovering designs the distinctive pieces they are. Art deco is an amalgamation of different styles that work together to achieve a modernist style and **GoldenWall2018** stays true to this spirit by bringing together the classic and modern styles with gold leaf as the material at their centre. A common thread that runs across the collection, gold leaf lends an understated metallic touch that is both charming and captivating. Rolling landscapes, mythical creatures mythical, and exotic florals find expression on these wallcoverings, which become a canvas for the unexpressed artistic longings that lie dormant in us all, setting the viewer, for a brief moment, free. The artistic combined with advanced technology makes these pieces works of 'cutting-edge artistry'.
